

DET NORSKE VERITAS

TYPE APPROVAL CERTIFICATE

CERTIFICATE NO. **S-6095**

This is to certify that the
Sacrificial Anode for Corrosion Protection

with type designation(s)
CORAL A High Grade and CORAL A Special Grade

Manufactured by
Skarpenord Corrosion AS
LANGESUND, Norway

is found to comply with
DNV's Recommended Practice B401.
Det Norske Veritas' Type Approval Programme 1-601.2, 2009, Sacrificial Anode Materials

Application

The mean current capacity of the sacrificial anode material after 6 months free running testing is 2585 Ah/kg and the mean closed circuit potential is -1090 mV vs. Ag/AgCl sea-water. Approval is given for use in sea water at temperatures below 30°C.

Surveyor

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed. If any person suffers loss or damage which is proved to have been caused by any negligent act or omission of Det Norske Veritas, then Det Norske Veritas shall pay compensation to such person for his proved direct loss or damage. However, the compensation shall not exceed an amount equal to ten times the fee charged for the service in question, provided that the maximum compensation shall never exceed USD 2 million. In this provision "Det Norske Veritas" shall mean the Foundation Det Norske Veritas as well as all its subsidiaries, directors, officers, employees, agents and any other acting on behalf of Det Norske Veritas.
